

**PATRIARCH, DISHWASHER**

Dish *dispositif*  
in disarray,  
plates improperly  
angled, overlapping.

Look: space is  
mandatory  
for soapy,  
foamy white  
wash  
to sear through  
polish,  
degrease,  
& shine.

An orderly must-  
a gappy  
must-  
no dark,  
unenterable,  
shadowy cells.

No-NOT like THAT!

Be firm with the pot.  
Its steel is rigid, but the rack  
can bend with  
force.

Let me do it.  
*Surveiller et punir!*

Think geometrically  
(rationally).

A perfect wash is  
Euclidean-  
not a speck of filth.

See? This is  
the proof.

-you want somethin' done right  
do it yourself-
